

CLINICAL LEAD/DEPUTY NURSE MANAGER

You will be based within one of our rehabilitation and recovery services. You will work closely with, and deputise for, the Service Manager.

You will be clinically responsible for:

- ensuring that the culture, systems, and standards of practice within the services reflects the philosophy of care as determined by Mental Health Concern (MHC)
- ensuring that staff organise, develop, and deploy care provision to ensure that MHC policies and procedures are safely implemented within your service

You will be a registered Mental Health Nurse with at least two years' post-qualification experience.

Your primary role will be:

- assisting the Service Manager in organising and developing service provision including staffing, budget allocation and expenditure, resources, support network, and public relations within and relating to the service
- supporting the Service Manager in providing leadership to the staff and organising care within the service
- delivering dementia care services to people who often communicate through behaviours that challenge
- promoting overall wellbeing of service users
- promoting and maintaining the highest achievable standard of care delivery, in accordance with the care philosophy of person-centred outcomes
