

STAFF NURSE (DEMENTIA CARE)

As a Staff Nurse, you will be based within one of our dementia care services. You will be a Registered Mental Health Nurse with a genuine desire to work with people with dementia.

Your primary role will be:

- delivering dementia care services to people who often communicate through behaviours that challenge
- promoting overall wellbeing of service users
- promoting and maintaining the highest achievable standard of care delivery, in accordance with the care philosophy of person-centred outcomes
- efficiently coordinating and controlling the day-to-day care and procedures, both in conjunction with, and in the absence of, the Service Manager/Clinical Lead
- working with families and other careers to assess client need, develop support plans, and implement planned interventions
