

### **STAFF NURSE (REHABILITATION AND RECOVERY)**

You will be based within one of our rehabilitation and recovery service. You will be a Registered Mental Health Nurse with a genuine desire to work with people with complex and enduring mental health problems.

Your primary role will be:

- using the principles of recovery-focused outcomes to promote the overall wellbeing in people who have long-standing and complex mental health problems, who often present with behaviours that challenge
- efficiently coordinating and controlling day-to-day service delivery, both in conjunction with, and in the absence of, the Service Manager/ Clinical Lead
- providing leadership to a team of support workers
- working with service users, their families, and other carers to assess client need, develop support plans, and implement planned interventions
- using an adaptable approach to fit the needs of the individual, recognising and promoting positive risk-taking
