

SUPPORT WORKER (REHABILITATION AND RECOVERY)

As a Support Worker, you will be based within one of our rehabilitation and recovery services.

Your primary role will be:

- to provide support to qualified staff in the assessment of client need, as well as in the planning and evaluating of their care
- the implementation of planned care, working in partnership with clients and reporting back verbally and in writing to the key workers; the main objective of this is to enable our clients to participate fully in both home and community life
- participation with clients in the general domestic routine of their home; this will include shopping, cooking, and cleaning – the broad aim is to create as normal and homely an environment as possible
